

Portoferraio, 16 ottobre 2021

Comunicato stampa n. 11/2021

FIM ENDURO VINTAGE TROPHY **all'Isola d'Elba**

Punto COVID

In light of the measures that will come into force on Monday 18 October, the **COVID Point** will be set up **near the Bar del Porto (Molo Massimo) in Portoferraio** and will come into operation starting from **MONDAY 18 OCTOBER at 8:30 am**.

The Covid Point will ensure the validity of the GREEN PASS and the possession of the SELF-CERTIFICATION; every person who gravitates to the event must be equipped with it.

Each 'work' area linked to the international event will be subject to control. Identification signs will be placed in each 'protected' * area and the 'triage' ** area will be identified.

RAPID SWABS will be carried out on site and, in case of negative result, waiting for the relevant green pass valid for 48 hours, it will be sufficient to show the sheet certifying the result of the swab.

*** Protected Area**

This refers to the area where access to the public is prohibited: access will be allowed only to those who are verified and have the identification bracelet.

**** Triage area**

In this area there will be staff in charge of checking self-certifications and the validity of the green pass, with the appropriate app (VERIFA C19).

Attached, the FMI guidelines for combating the spread of Covid 19 and the self-certification form (adults and minors).
